✨Shineora – E-Commerce Platform

Shineora is a web-based e-commerce platform built to display and sell products through a clean, user-friendly online store. The website is designed for a smooth shopping experience and focuses on essential e-commerce functionality.

This project was created and deployed on **Hostinger** using **WordPress** and **Elementor**, with the goal of understanding real-world website building, hosting, and online business operations.

🌳Features

- Online product catalog
- Clean and responsive UI
- User-friendly shopping experience
- Mobile-friendly design
- Easy content and product management

🦠Tech Stack

- **Platform:** WordPress
- **Page Builder:** Elementor
- **Hosting:** Hostinger
- **Language:** PHP, HTML, CSS
- **Database:** MySQL
